

Nikodem Lesiecki

nlesiecki@icloud.com • <https://github.com/openpango>

Poland • Creative Technologist & AI Agent Builder

SUMMARY

My name is Nikodem, but everyone calls me Nico. I am 22, from Poland, and I have gone from designing pixels to building AI agents — and I am not slowing down. What sets me apart is my creativity, hard work, and adaptability. I love solving complex problems, especially the ones that seem impossible at first. I bring fresh energy and creative-logical thinking to any team.

EXPERIENCE

Freelance / Personal Projects (AI & Web)

07.2023 – Present

Remote

- Web Development (HTML/CSS/Figma): Designed and coded a custom responsive portfolio website from scratch.
- AI & Prompt Engineering: Created advanced scripts and prompts for LLMs, automating generation and analysis of large data blocks.
- Agentic Workflows: Designed and implemented multi-stage business automations integrating various tools via API using autonomous AI agents.

Intern / IT & Web Support

09.2020 – 06.2023

Hubert Krauze • Kalisz / WrocBaw

- AD and M365 Administration: Managed identities, permissions, and user accounts.
- IT Support (Hardware / LAN Networks): Resolved hardware and system issues on Windows workstations.
- Web & UI: Maintained website, designed new UI elements, implemented RWD fixes.

PROJECTS

MacOSENSE (2024)

A native, external, read-only ESP and combat assistant for Counter-Strike 2 running on macOS via Wine/CrossOver/Whisky. Leverages macOS native Mach kernel APIs to read process memory without injecting DLLs, making it inherently stealthy and undetectable by VAC.

Technologies: macOS, C, Mach Kernel APIs, Wine, CrossOver

EDUCATION

IT Technician

09.2020 – 06.2023

TEB Edukacja Technical School • Kalisz

Completed 3rd-year level, passed the State Vocational Examination. Qualification: INF.02 (System Administration and Web Technologies).

SKILLS

AI & Automation

AI Coding (Vibe Coding), Prompt Engineering, Building AI Agents, Bypassing AI Restrictions, Agentic Workflow Design

Design

Figma, UI/UX Design, Graphic Design, Responsive Design

Frontend

HTML/CSS, React, Next.js, Web Performance Optimization
